"Strategic Leadership": Large-Scale Public Cloud Migration and Modernisation

Designation: Program Manager - Onsite, UK

Tenure: May 2020 – Present

Led the planning and execution of application migration for a leading European Energy company, from legacy **Data Centre to Wipro Managed Private Cloud**. Subsequently, collaborated with Microsoft to setup a Public cloud migration factory to migrate and modernise over 3,000 applications, including large SAP applications, FileServers and other legacy applications to **Azure**. This is **one of the largest migration for Azure in world and the largest in Europe**. This program team consisted of upto 10 projects and over 100 associates at its peak.

Key Skills

Project / Program Management

Cloud and DC Transformation

Public Cloud migrations

"Navigating Complexity; Project Manager for IT Separation and Migration in Post-De-merger Scenario"

Designation: Project Manager - Onsite, UK.

Tenure: July 2019 - April 2020

As a Project Manager, I led a crucial initiative involving the **separation and migration of IT infrastructure** for an insurance client following a **de-merger**. This multifaceted project entailed segregation of IT systems and the **migration of approximately 700 applications** to new data centres. Through strategic coordination and effective project management, I ensured a seamless transition, mitigating risks and maintaining operational continuity during this pivotal phase of organisational change.

"Global Data Center Transformation: Orchestrating Seamless Server Migration for Centralisation"

Designation: Project Manager - Offshore, Bangalore.

Tenure: May 2017 – July 2019

As a Project Manager, I spearheaded a comprehensive data centre transformation initiative, overseeing the migration of approximately **400 virtual and physical servers**. This project spanned across multiple regions including **North America, South America, EMEA, and APAC**, consolidating infrastructure to **two centralised Wipro Data Centres** located in Chicago and Ashbury.

"Dynamic Data Center Migration: Navigating High Pressure and Hostile Vendor Environments"

Designation: Project Manager - Onsite, Denmark

Tenure: June 2016 – May 2017

During this tenure as I navigated a **high-pressure and fast-paced data centre migration** project in Denmark. Leading the migration of application servers from hostile incumbent vendors to Wipro Data Centres, we operated under intense pressure to minimise disruption to the client's business operations.

"Efficient Implementation of Private Cloud and Hosting Services"

Designation: Project Manager - Offshore, Bangalore.

Tenure: June 2013 – May 2016

I served as a Project Manager overseeing the **implementation of cloud and hosting services** from offshore, including visit to client location in UK for client engagement and relationship building. My role involved **meticulous planning, execution and end user interaction** to ensure successful delivery and early life support of new hosting services into client data centres.

Computer Sciences Corporation LTD

"Driving Identity Management & Information Security Solutions for Leading US Automobile Company"

Designation Service delivery lead and Information Security Engineer

Tenure: Jan 2010 – April 2012

In my **first foray into a large corporate environment**, I commenced as an **Information Security Engineer** and was subsequently **promoted** to the role of **Service Delivery Lead**. I orchestrated the delivery of identity management and critical information security solutions for a prominent US automobile company. This journey underscored my **early readiness for leadership roles** and refined my aptitude for future leadership endeavours.

Vimsee Computers Pvt. Ltd

"Early Career Internship: Software Engineering in a Startup Environment"

Application Development.

Tenure: Jul 2009 – Dec 2009

This role in **fast-paced startup environment**, provided me with valuable experience. working on IT solutions tailored for small and medium-sized businesses. It was a **pivotal early experience** that allowed me to contribute to real-world projects, sharpen my technical and communications skills and emboldened me for the corporate journey ahead
